

## **Oman Branch Academic Staff / Programs Research Expectations**

*Academic staff members are expected to do the following:*

- Produce one research/scholarly work, such as published research article, conference paper, book or chapter(s) of a book in an academic year.
- Actively participate in research activities planned within the branch.
- Plan for meeting the standards to apply in the excellence awards introduced by the AOU (i.e. the Distinguished Researcher Award).
- Record/update their published work to the university's repository on Google scholar.

*Every academic program is expected to do the following:*

- Plan for research activities within the program in the beginning of every academic year and implement them.
- Have at least one running funded research project either through AOU system or through other local and regional research funding bodies.
- Form research teams within and across programs and branches.
